

## Internship training at ProForest

### helping people use natural resources responsibly

**1 year full-time, £ 18.000 p/a, Oxford, UK**

ProForest has an exciting opportunity for a one year full-time internship training position. This opportunity is open to recent masters graduates from relevant natural and applied social sciences who would like to take their studies into the practical realm of integrating sustainability within business practices.

ProForest's recent work has included the facilitation of standards-setting processes, advising clients on responsible supply chain management and procurement policies, field audits for natural-resource management (eg. for forests, biofuel production and food crops), international policy development, preparation of technical guidance and outreach material and training.

The intern will be a member of our project management team based in Oxford, UK, and may be required to undertake domestic and international travel. The intern will be involved in all aspects of ProForest's work and supervision will be given at all stages: research, liaison, presentation, report writing, project management, financial and communication.

A relevant master's degree is required; e.g. natural sciences, applied social sciences, international development, climate change. Work experience in natural resources or supply chain management and experience in a tropical country with a demonstrated ability to work within the cultural context of developing countries is preferable. Excellent spoken and written English, research and presentation skills are required. Oral and written fluency in another language is an advantage. A desire to learn, be flexible and work as part of a team is essential.

**Please send CV and short covering letter by 31 July 2009 to [alex@proforest.net](mailto:alex@proforest.net)**

ProForest specialises in the responsible management of natural resources, helping develop and implement sustainable policy and practices for forests, agricultural commodities and conservation
